

SQL Database Master Reference Guide

1. Introduction to RDBMS & SQL

Structured Query Language (SQL) is the standard language for relational database management systems.

Core Commands:

- DML: SELECT, INSERT, UPDATE, DELETE
- DDL: CREATE, ALTER, DROP, TRUNCATE
- DCL: GRANT, REVOKE
- TCL: COMMIT, ROLLBACK, SAVEPOINT

2. Filtering & Grouping Data

WHERE clause for row filtering, GROUP BY for aggregation, HAVING for filtering groups, ORDER BY for sorting, and LIMIT/OFFSET for pagination.
